101 Labs for the Cisco CCNP Exams

By Farai Tafa

Paperback. Condition: New. 1188 pages. Knowing the theory alone is no longer enough to pass your Cisco CCNP exams. Cisco has recently made some very big changes to the way they test CCNP engineers. You are no longer required to pass four theory-only exams. Instead, you are faced with three very difficult exams, which concentrate on routing, switching, and troubleshooting knowledge and your hands-on ability. Some of the exams are now heavily weighted on practical elements, where you are faced with complicated multi-technology labs in which you must configure routing protocols and network services. You are also tested on troubleshooting scenarios where you must quickly and accurately diagnose and repair network faults on routers and switches. Of course, this is all while being timed in an exam that may feature up to 90 of hands-on scenarios and only 10 based on theory. 101 Labs for the Cisco CCNP exams has been designed to equip you with the skills and confidence you need to plan, configure, and troubleshoot a multitude of protocols and network services, which will enable you not only to pass your exams but also to use your skills as a network engineer in a job or as a...

Reviews

Complete guideline for publication fans. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
