*Simply no terms to explain. I am quite late in start reading this one, but better then never. Its been written in an remarkably easy way and is particularly merely soon after i finished reading this book where basically changed me, affect the way i really believe.*  
(Prof. Jedediah Kuhic DVM)

## SMOOTH FOUR-MANIFOLDS AND COMPLEX SURFACES ERGEBNISSE DER MATHEMATIK UND IHRER GRENZGEBIETE. 3. FOLGE A SERIES OF MODERN SURVEYS IN MATHEMATICS

Springer. Paperback. Book Condition: New. Paperback. 522 pages. Dimensions: 9.0in. x 6.0in. x 1.5in. In 1961 Smale established the generalized Poincaré Conjecture in dimensions greater than or equal to 5 and proceeded to prove the h-cobordism theorem. This result inaugurated a major effort to classify all possible smooth and topological structures on manifolds of dimension at least 5. By the mid 1970s the main outlines of this theory were complete, and explicit answers (especially concerning simply connected manifolds) as well as general qualitative results had been obtained. As an example of such a qualitative result, a closed, simply connected manifold of dimension  $2 < n < \infty$  is determined up to finitely many diffeomorphism possibilities by its homotopy type and its Pontrjagin classes. There are similar results for self-diffeomorphisms, which, at least in the simply connected case, say that the group of self-diffeomorphisms of a closed manifold  $M$  of dimension at least 5 is commensurate with an arithmetic subgroup of the linear algebraic group of all automorphisms of its so-called rational minimal model which preserve the Pontrjagin classes. Once the high dimensional theory was in good shape, attention shifted to the remaining, and seemingly exceptional, dimensions 3 and 4. The theory behind the results for manifolds of dimension at least 5 does not carry over to manifolds of these low dimensions, essentially because there is no longer enough room to maneuver. Thus new ideas are necessary to study manifolds of these low dimensions. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
