PREPARATION OF GRAPHENE OXIDE FROM TATTERED GRAPHITE AND APPLICATIONS

Preparation of Graphene
Oxide from Tattered
Graphite and Applications

LAMBERT

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Our R&D work is focused towards the development of novel materials for organic solar cells applications along with the development of novel processes (cost effective and eco-friendly) for the synthesis of existing and modified materials for cheaper organic photovoltaic technology. Our special focus is also on development of graphene based interfacial layer for large area flexible organic electronics. We have introduced novel methodology for bulk synthesis of highly conducting graphene oxide and...

Reviews

This composed pdf is great. It usually will not cost too much. I am very easily can get a pleasure of reading a composed book.

-- **Luis Klein**

This type of pdf is every little thing and helped me searching forward and more. It can be writter in easy words and phrases and never hard to understand. You will not really feel monotony at anytime of your respective time (that's what catalogues are for about should you request me).

-- **Fern Bailey**

Most of these ebook is the ideal publication available. It really is rally fascinating through looking at period. I am just easily could possibly get a enjoyment of reading through a created pdf.
