Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Food Adulteration: Or, What We Eat, and We Should Eat With the assistance of several gentlemen of recognized skill and large experience, both in the laboratory and with the microscope, the writer has endeavored to make such an investigation of the subject of food adulteration as would enable him to present to the public a popular rather than a scientific treatise thereon. Believing the subject to be one which concerns all, he has endeavored to discuss it in a manner comprehensible by all. His investigations were not conceived, nor have they been prosecuted, in a spirit of fanaticism. The search he has made for the bad, has been a search for the good as well. With no prejudice, and no presumption of guilt in any case, he has simply endeavored to arrive at just and defensible conclusions. He has sought for nothing more and for nothing less than the facts, and it has been equally his aim to state nothing more and nothing less than the truth. The facts, as he has found them, require no exaggeration. They are astounding and sensational enough for all purposes, and furnish every argument that is needed to support a demand for the correction of a great and growing evil.
